

Grants for the postgraduate course in Seismic Design and Retrofit of Buildings and Bridges

New programme of grants for the [online postgraduate course in Seismic Design and Retrofit of Buildings and Bridges \(PRS-EP\)](#) at the UPC School, which will begin on 16 April 2018. **The grants can cover up to 30% of the registration fee.**

The grant will be allocated based on the following conditions as they apply to the candidate: **academic excellence, professional experience and socio-economic circumstances**. The current financial situation of the candidate's home country will also be taken into consideration.

People with the profiles for admission to the programme who are interested in applying for a grant must first be admitted to the programme. In order to formalise their application, they must send documentation certifying their academic record, professional experience and socio-economic situation to the training specialist, with a letter of motivation requesting the grant.

This grant is incompatible with other grants and discounts offered by the UPC School, and is under no circumstances retrospective.
