Three grants of 20% to study the postgraduate course in Artificial Intelligence with Deep Learning

The UPC School is offering three grants of 20% of the registration fee to study the postgraduate course in Artificial Intelligence with Deep Learning, which will begin in face-to-face format on 8 February 2023.

People who meet the requirements of the programme's admission profile and who are interested in applying for the grant must first be admitted to the postgraduate programme and submit the following documentation:

- A letter of motivation, setting out their reasons for taking the programme and applying for the grant, and containing information about their social/economic circumstances, if applicable.
- Academic record.
- An academic and/or professional letter of recommendation, if available.

The deadline for applications for this grant is 12 December 2022.

The documentation submitted, including the interest shown in the field of deep learning, the applicant's academic record, curriculum vitae and social/economic circumstances will be assessed. Candidates seeking to rejoin the labour market after a period without working and those wishing to reorient their professional profile towards deep learning will also be taken into account, and consideration will be given to the impact that the training may have on their professional development.

If candidates are of equal merit, priority will be given to grants for female students, in order to promote female talent in the field of deep learning.

Please contact the programme specialist on 93 706 80 35, or use the postgraduate course information form for more information on the application procedures.

This grant is incompatible with other grants and discounts offered by the UPC School, and is under no circumstances retrospective, i.e. people who have already registered are ineligible.
